## UNITED KINGDOM

Population	63,181,775
GDP per person (\$ per person)	\$36,700
Life expectancy	80.17
Average food intake (calories per day)	3440
Literacy rate of population (Being able to read and write)	99%

## UNITED STATES OF AMERICA

Population	315,539,000
GDP per person (\$ per person)	\$49,800
Life expectancy	78.49
Average food intake (calories per day)	3770
Literacy rate of population (Being able to read and write)	99%

## GERMANY

Population	81,305,856
GDP per person (\$ per person)	\$39,100
Life expectancy	80.19
Average food intake (calories per day)	3530
Literacy rate of population (Being able to read and write)	99%

# AUSTRALIA

Population	22,015,576
GDP per person (\$ per person)	\$42,400
Life expectancy	81.90
Average food intake (calories per day)	3190
Literacy rate of population (Being able to read and write)	99%

# JAPAN

Population	127,308,088
GDP per person (\$ per person)	\$36,200
Life expectancy	83.19
Average food intake (calories per day)	2810
Literacy rate of population (Being able to read and write)	99%

# RUSSIA

Population	142,517,670
GDP per person (\$ per person)	\$17,700
Life expectancy	66.46
Average food intake (calories per day)	3270
Literacy rate of population (Being able to read and write)	99%

# GREECE

Population	10,767,827
GDP per person (\$ per person)	\$25,100
Life expectancy	80.05
Average food intake (calories per day)	3700
Literacy rate of population (Being able to read and write)	96%

## CANADA

Population	34,300,083
GDP per person (\$ per person)	\$41,500
Life expectancy	81.48
Average food intake (calories per day)	3530
Literacy rate of population (Being able to read and write)	99%

## SPAIN

Population	47,042,984
GDP per person (\$ per person)	\$30,400
Life expectancy	81.27
Average food intake (calories per day)	3270
Literacy rate of population (Being able to read and write)	97.7%

## CHINA

Population	1,343,239,923
GDP per person (\$ per person)	\$9,100
Life expectancy	74.84
Average food intake (calories per day)	2970
Literacy rate of population (Being able to read and write)	92.2%

## SOUTH AFRICA

Population	48,810,427
GDP per person (\$ per person)	\$11,300
Life expectancy	49.41
Average food intake (calories per day)	2990
Literacy rate of population (Being able to read and write)	86.4%

# BRAZIL

Population	199,321,413
GDP per person (\$ per person)	\$12,000
Life expectancy	72.79
Average food intake (calories per day)	3456
Literacy rate of population (Being able to read and write)	88.6%

# INDIA

Population	1,205,073,612
GDP per person (\$ per person)	\$3,900
Life expectancy	67.14
Average food intake (calories per day)	2300
Literacy rate of population (Being able to read and write)	61%

# SAUDI ARABIA

Population	26,534,504
GDP per person (\$ per person)	\$25,700
Life expectancy	74.35
Average food intake (calories per day)	3130
Literacy rate of population (Being able to read and write)	86.6%

# AFGHANISTAN

Population	30,419,928
GDP per person (\$ per person)	\$1,000
Life expectancy	49.72
Average food intake (calories per day)	N/A
Literacy rate of population (Being able to read and write)	28.1%

## TURKEY

Population	79,749,461
GDP per person (\$ per person)	\$15,000
Life expectancy	72.77
Average food intake (calories per day)	3480
Literacy rate of population (Being able to read and write)	87.4%

## INDONESIA

Population	284,645,008
GDP per person (\$ per person)	\$5,000
Life expectancy	71.62
Average food intake (calories per day)	2540
Literacy rate of population (Being able to read and write)	90.4%

## MEXICO

Population	127,308,088
GDP per person (\$ per person)	\$15,300
Life expectancy	76.66
Average food intake (calories per day)	3250
Literacy rate of population (Being able to read and write)	86.1%

## KENYA

Population	43,013,341
GDP per person (\$ per person)	\$1,800
Life expectancy	63.07
Average food intake (calories per day)	2060
Literacy rate of population (Being able to read and write)	87.4%

## SOUTH KOREA

Population	48,860,500
GDP per person (\$ per person)	\$32,400
Life expectancy	79.3
Average food intake (calories per day)	3070
Literacy rate of population (Being able to read and write)	97.9%

## ITALY

Population	61,261,254
GDP per person (\$ per person)	\$30,100
Life expectancy	81.86
Average food intake (calories per day)	3660
Literacy rate of population (Being able to read and write)	98.4%

## UKRAINE

Population	44,854,065
GDP per person (\$ per person)	\$7,600
Life expectancy	68.74
Average food intake (calories per day)	3230
Literacy rate of population (Being able to read and write)	99.7%

## BANGLADESH

Population	161,083,804
GDP per person (\$ per person)	\$2,000
Life expectancy	70.06
Average food intake (calories per day)	2250
Literacy rate of population (Being able to read and write)	56.8%

# NEW ZEALAND

Population	4,327,944
GDP per person (\$ per person)	\$28,800
Life expectancy	80.71
Average food intake (calories per day)	3150
Literacy rate of population (Being able to read and write)	99%

# CHILE

Population	17,067,369
GDP per person (\$ per person)	\$18,400
Life expectancy	78.1
Average food intake (calories per day)	2960
Literacy rate of population (Being able to read and write)	95.7%

## EGYPT

Population	83,688,164
GDP per person (\$ per person)	\$6,600
Life expectancy	72.93
Average food intake (calories per day)	3160
Literacy rate of population (Being able to read and write)	72%

## ISRAEL

Population	7,590,758
GDP per person (\$ per person)	\$32,200
Life expectancy	81.07
Average food intake (calories per day)	3540
Literacy rate of population (Being able to read and write)	97.1%

## NIGERIA

Population	170,123,740
GDP per person (\$ per person)	\$2,700
Life expectancy	52.05
Average food intake (calories per day)	2710
Literacy rate of population (Being able to read and write)	61.3%

## DEMOCRATIC REPUBLIC OF THE CONGO

Population	73,599,190
GDP per person (\$ per person)	\$400
Life expectancy	55.74
Average food intake (calories per day)	1590
Literacy rate of population (Being able to read and write)	66.8%
